EXPERIENCE

Systems Maintenance Technician

Yates Services, Canton, Mississippi | Jul 2026 to present

- Maintain the PCs on the assembly line at the Nissan manufacturing plant in Canton, Mississippi, so vehicles advance through the correct sequence numbers and workers can do their jobs without interruption.
- Support torque tools connected to light bars that confirm fasteners are driven to the correct torque spec.
- Maintain Dell Latitude tablets and scanners on forklifts and AGVs that confirm parts arrive at the correct location along their routes.
- Keep Zebra, VIN, and certification printers running, including reloading paper and supplies.

Director of Technology

Emmanuel Baptist Church, Macon, Mississippi | Mar 2023 to present

- Manage all networking equipment and run cabling throughout the church.
- Deployed ChurchCRM on AWS to track the church's finances and attendance.
- Produce a live stream every Sunday using a network-attached 4K camera feeding OBS and streaming to YouTube, reaching viewers across a six-state area.

Systems Analyst

Mississippi United to End Homelessness, Jackson, Mississippi | Oct 2024 to Aug 2025

- Produced monthly, quarterly, and annual reports on Mississippi's unhoused population using Excel and HMIS (Homeless Management Information System), delivered to state agencies and the U.S. Department of Housing and Urban Development (HUD).
- Cleaned and validated thousands of records so data met HUD standards.
- Built report templates that streamlined recurring reporting.

Consumer Protection Specialist I

Mississippi Department of Agriculture, Jackson, Mississippi | Feb 2024 to Oct 2024

- Inspected nearly 2,000 fuel pumps across a four-county area, verifying that each one dispensed accurately and fairly.
- Recorded inspections in WinWam and issued violation reports to the state and to station owners.
- Enforced compliance by red-tagging pumps, taking them out of service, when violations went unresolved after one week.
- Tested underground fuel tanks for water contamination and collected fuel samples from randomly selected stations every week.
- Investigated consumer complaints.

EDUCATION
